

PRODUCT SHOWCASE—Preparing for Spring

Spring is in the air and our clients are just beginning to talk about booking pedicures.

Their concern is to “get their feet ready for summer”. **But, what about spring?**

Most people ignore their feet during the winter season. It’s our responsibility as pedicurists to inform our clients of the benefits that early foot care and protection can have on your clients feet all year long.

**FOOTLOGIX
7 Extra is the
#1 SELLING MOUSSE**

- ⇒ Dry skin antifungal
- ⇒ Urea for hydration
- ⇒ Clotrimazole for more than just dry skin
- ⇒ 160 applications

When we feel roughness or “velcro” type skin on our heels, it’s more than just dry skin. If you’ve used moisturizers and lotions and days later your skin is still feeling rough....you need **Footlogix #7 Extra**. RECOMMEND THIS TO YOUR CLIENTS. **THEY WILL BE YOUR #1 FAN!**

The more we use it, the more it protects!

Prepare your clients now for healthy sandal feet in the summer.

**CJ’S 2011
KNOWLEDGE CORNER**

- ◆ Clotrimazole—you don’t need a prescription for this product to work. Anti-fungal mousse...great for “more than just dry feet”.
- ◆ Tea tree—anti-bacterial NOT anti-fungal.
- ◆ Tinea Pedis—fungus of the skin on our feet. Are your clients feet rough? Then it may be more than just dry skin.
- ◆ Urea—allows our cells to absorb and retain moisture.
- ◆ 3 things to facilitate an effective product

- 1: Technology
- 2: Ingredients
- 3: A molecular structure capable of penetrating the skin

FOOTLOGIX—IT WORKS

**BEFORE & AFTER 3 days
Using Footlogix #7 Extra**
