

**PRODUCT SHOWCASE—***Spring has sprung, Summer is near*

Pedicures for 2011 are starting to bloom. Most States are out of boots and clients are beginning to bare all.

The season doesn't come without challenges though, and we need to be prepared to offer our clients products which will help with those challenges.

One such challenge is hyperhidrosis. A condition which causes our sweat glands to be over active.....better known as "sweaty feet: Footlogix #5 sweaty feet formula offers relief for those clients who experience the uncomfortable feeling of hyperhidrosis.

**#5 SWEATY FEET**

- Oakbark & sage, the astringent that soaks up the moisture
- 160 applications—just under 3 months usage
- Can be used on the hands as well
- Mousse formula penetrates within 15-20 seconds

**Hyperhidrosis goes foot and foot with Bromhidrosis (smelly feet). Recommend our # 9 foot spray to aid in the elimination of foot odor's.**

**The more we use it, the more it protects!**
