For Healthy, Happy, Well Cared for Feet

PRODUCT SHOWCASE—Tired Leg Formula #8

Footlogix tired heavy leg formula is one of our best kept secrets. With horse chestnut and witch hazel in our formula, our tired leg mousse will help reduce the heavy feeling we can experience in our lower extremities from walking, running, and standing on our feet all day....just to name a few.

In addition, it's great for you or clients who wear compression hose because it won't stain or soil the hose. Tired leg formula is non greasy and non occlusive.

USE TIRED LEG IN YOUR PEDICURE ROOM

YES, add \$10.00—\$25.00 onto your already existing pedicures as an add on service for nurses, athletes and your geriatric client who need a bit more TLC. Used with a drop of our Footlogix massage formula, you can massage from the knee down allowing your clients to receive the benefit of a massage while reducing their heavy , tired leg feeling.
